

Name:

## Industrial Metal Prep

Product Code:

**4008**

### Description:

Industrial Metal Prep is a red, acidic solution whose principal ingredients include phosphoric acid (10%-20% by weight), caustic potash (4% by weight), 1-methoxy-2-propanol, and propan-2-ol (both 1%-5% by weight). It cleanses and removes rust from metal in order to prepare it for further treatment. It can also serve as an impermanent rust inhibitor for metal surfaces.

### Benefits:

- Low flammability
- Low instability
- Available in three sizes to suit a variety of cleaning needs

### Applications:

- Industrial Metal Prep cleans, polishes, and de-rusts metal surfaces, as well as temporarily inhibits rust from developing.
- Before use, dilute Industrial Metal Prep to a ratio of 1:50.
- Each gallon of water will require approximately 3 ounces of solution, although it may be mixed to a higher concentration if hard water is being used.
- Apply Industrial Metal Prep using a hot water washer or pump sprayer.
- Industrial Metal Prep should not be poured into pumping systems or heating coils, and should not be applied to fragile paint or anodized aluminum surfaces.

## Product Information:

Concentrate Mixed

Part No.	Size	Weight
4008-1	4x1 Gallon Case	40 lbs.
4008-5	5 Gallon Pail	50 lbs.
4008-55	55 Gallon Drum	515 lbs.

## Technical Data:

<b>Color:</b>	Red
<b>Odor:</b>	Characteristic
<b>pH:</b>	2 - 3

## Safety:

Contains Phosphoric Acid

Keep out of reach of children. Do not handle until all safety precautions have been read and understood. Use eye, face, and rubber glove protection when handling these contents. Do not store at temperatures above 120 ° F. Do not allow to freeze.
