

Name:

**Red Fighter**

Product Code:

**4014**

**Description:**

Red Fighter is a red-colored solution that is composed of a mixture of acids, most prominently carbamidic acid (20%-30% by weight) and hydrochloric acid (10%-20% by weight). It can be used to eliminate a number of different stains from concrete and brick surfaces, such as rust stains, tire track stains, and red mud stains.

**Benefits:**

- Nonflammable
- Low instability
- Can remove a variety of different stains
- Industrial strength

**Applications:**

- Red Fighter can be utilized to erase blemishes from mud, rust, tires, and other materials from concrete and brick.
- It should be applied with a pump sprayer in 3' by 5' segments, then scrubbed with a plastic bristle brush or broom in order to better permeate the surface.
- The solution should be allowed to sit for 10-30 minutes, and finally, rinsed off with a high-pressure sprayer.
