

Name:

## Red Super Tracker

Product Code:

**4015**

### Description:

Red Super Tracker is a dark red solution whose main ingredient is lauryldimethylamine oxide (10%-20% by weight). This multipurpose solution serves three purposes. First, Red Super Tracker can be utilized as a general cleaning solution. Second, it is an effective odor mask thanks to its delicious apple scent. Finally, Red Super Tracker can act as a marker to guide the soft washing process. Its color also disappears over time, notifying the user when the surface being soft washed should be rinsed off.

### Benefits:

- Pleasant apple scent
- Nonflammable
- Low instability

### Applications:

- Red Super Tracker is a three-in-one solution that serves as a cleanser, odor mask, and tracker during the soft washing of surfaces.
- Before applying, use a soft wash proportioning device to mix Red Super Tracker with sodium hypochlorite.
- While cleaning, Red Super Tracker's red color will fade after 30-180 seconds, informing the user that the surface can then be rinsed.
- For Pentair proportioners, use Red Super Tracker without dilution at a setting of 0.5-1.5.
- For Georg Fischer proportioners, use Red Super Tracker without dilution at a setting of 40.
- Do not use Red Super Tracker with downstream injection systems.

## Product Information:

Concentrate Mixed

Part No.	Size	Weight
4015-1	4x1 Gallon Case	40 lbs.
4015-5	5 Gallon Pail	50 lbs.
4015-55	55 Gallon Drum	530 lbs.

## Technical Data:

<b>Color:</b>	Red
<b>Odor:</b>	Apple Scent
<b>pH:</b>	8

## Safety:

This product is not regulated by DOT.

Not designed to be used via downstream injection system. Use with soft wash proportioning system for best results. Contact your sales representative for information.
