

Name:

Tidal Bleach Neutralizer

Product Code:

4020

Description:

Tidal Bleach Neutralizer is a blue, alkaline solution whose primary ingredient is sodium hyposulfite (10%-20% by weight). This product can be used to neutralize bleach crystals, which may remain on outdoor surfaces that have been cleaned with bleach but not rinsed well. Tidal Bleach Neutralizer will get rid of the streaks these crystals cause on glass. It also prevents the corrosion they can generate on trailers, vehicles, and other machinery, which lengthens the amount of time between replacements. Additionally, Tidal Bleach Neutralizer can be utilized to safeguard plants against bleach.

Benefits:

- Nonflammable
- Low instability

Applications:

- Tidal Bleach Neutralizer is a rinse that may be applied to a variety of outdoor materials to neutralize residual bleach from the cleaning process. It also shields plants from bleach damage.
- The degree to which Tidal Bleach Neutralizer must be diluted depends on the applicator being used.
- For X-Jet application, dilute 8-16 ounces of Tidal Bleach Neutralizer with 5 gallons of water.
- For downstream injector application, dilute 15-24 ounces of Tidal Bleach Neutralizer with 5 gallons of water.
- Apply to wet surfaces, and rinse well.
- For use with plants, spray Tidal Bleach Neutralizer onto pre-wet plants before and after using bleach, then rinse well.
- Do not allow Tidal Bleach Neutralizer to dry on surfaces, and do not apply to edible plants.

Product Information:

Concentrate Mixed

Part No.	Size	Weight
4009-1	4x1 Gallon Case	40 lbs.
4009-5	5 Gallon Pail	50 lbs.
4009-55	55 Gallon Drum	510 lbs.

Technical Data:

Color:	Blue
Odor:	Characteristic
pH:	9 - 10

Safety:

This product is not regulated by DOT.

Keep out of reach of children. Do not handle until all safety precautions have been read and understood. Use eye, face, and rubber glove protection when handling these contents. Do not store at temperatures above 120 ° F. Do not allow to freeze.
