

Name:

Tidal Graffiti Remover

Product Code:

4027

Description:

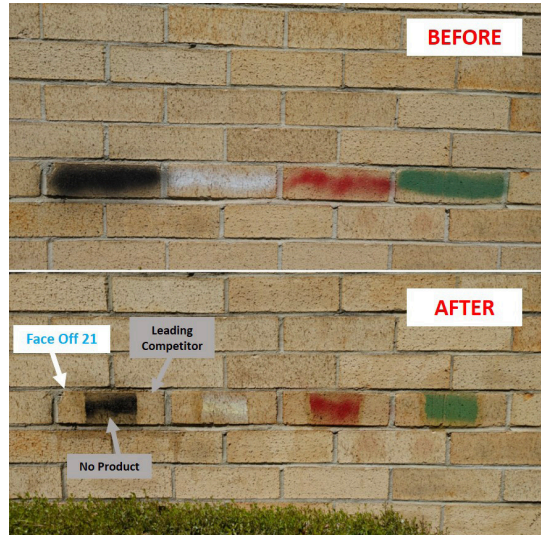

Tidal Graffiti Remover is a graffiti removal system that includes two products. Component 1 is an orange, acidic solution consisting primarily of a proprietary surfactant blend, 2-butoxyethanol, and methyl ester from soybean oil (all 10%-20% by weight); and Component 2 is a dark brown, alkaline solution consisting primarily of morpholine (30%-40% by weight), caustic potash (5%-10% by weight), and ethoxylated nonylphenol (1%-5% by weight). These components work together to remove spray-painted graffiti from a number of different surfaces.

Benefits:

- Safe for wet, dry, hot, and cold environments
- Self-neutralizing
- Low flammability and instability
- Can be utilized on porous, non-porous, coated, and uncoated surfaces

Applications:

- Tidal Graffiti Remover is a set of two graffiti removal products that work together to expel graffiti from porous, non-porous, coated, and uncoated surfaces.
- Before use, spot test both components on a small portion of the desired surface.
- Use a low-pressure pump-up sprayer or a brush to apply Component 1 to the graffitied area.
- Unless cleaning an indoor or painted surface, administer Component 2 in the same fashion immediately following the application of Component 1.
- Let sit for 5-10 minutes, then utilize a hot water, high pressure washer to rinse off. If cleaning indoors, simply wipe off.
- Stubborn spray paint may require a second or third application of the Tidal Graffiti Remover system.

Product Information:

Concentrate Mixed

Part No.	Size
4027-2	2x1 Gallon Kit
4027-5	2x2.5 Gallon kit

Technical Data:

Color:	(Pt 1)Orange / (Pt 2)Dark Brown
Odor:	(Pt 1&2) Characteristic
pH:	(Pt 1) 2-4 / (Pt 2) ≥ 13

Safety:

Contains Potassium Hydroxide

Keep out of reach of children. Do not handle until all safety precautions have been read and understood. Use eye, face, and rubber glove protection when handling these contents. Do not store at temperatures above 120 ° F. Do not allow to freeze.
